BEING IN THE TOP 10% SKILL STACKING

'It's easier and more effective to be in the top 10% in several different skills, than it is to be in the top 1% of any one skill'

'Try to be good or great at something rather than being the best'

'Mastering a combination of skills helps you be employable, edgy and advance faster'

USE THE LIST BELOW TO ADD A SKILL TO EACH CUP ON THE STACK OPPOSITE.

(You can add your own skills to but remember these shouldn't be personality attributes)

Are there any skills on the list that you're curious about or interested in? Do some research on how you could learn these skills; use YouTube or TikTok in a positive way and search these.

Acro	Debating	Languages - speak	Psychology	Textiles
Acting - classical	Diving	Languages-read	Public speaking	Tiktok
