

Return to Rosina Andrews Method Events

Our comprehensive guide for your
child's safety and our protocols
during Covid 19.

Last Updated August 2020

Attendance

Students should only attend the day event if they and their family members are free of any cold and flu like symptoms as well as those specifically associated with Covid 19.

We ask that isolation, quarantine and testing protocols laid out by the government are adhered to by all our students, families and faculty.

Learning Capsules

Your child has been allocated a 'learning capsule' of which they will remain in for the whole day. With children placed in. By working in capsules this minimises the contact the students have whilst at the studio.

Cleaning and Hygiene

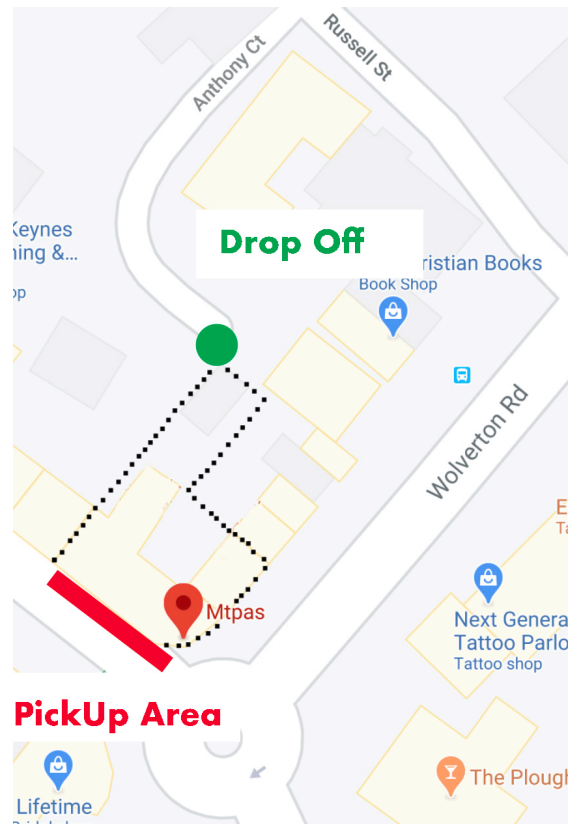

We will be stipulating hand hygiene upon arrival and leaving the studio with our hand sanitiser units. Studio floors and surfaces will be cleaned in-between each learning capsule.

Our large, high ceiling fully ventilated rooms will have all windows and doors open. Due to safety the main entry and exit doors will be shut and opened when students arrive and leave by a member of staff.

Distancing and Drop-Off

We have a one way systems and staggered arrival and departure times for entry and exit to the studio. There are markers on the floors for a one way system around the building. Toilets allocated to each studio space to reduce contact. Each studio has been marked with 2m2 spots for dancers to dance in their own personal space. Dancers will not be participating in any partner activities or using any props. Corrections will be verbal not via touch.

We will be using our back gate and back entrance door for entry. This will eradicate clashing of people queuing with high street stores. Please enter our back gate which can be accessed by Antony Court off of Russell Street. **PLEASE DO NOT DRIVE INTO THIS CARPARK.** (The car park is privately owned) but enter by foot, your child with one adult can enter our back gate by the Hollywood studio and wait on the socially distanced markers in the Hollywood studio to be allowed into the studio at their entry time. We ask that any dancers are watched and enter through the gate alone (a staff member will be waiting to greet them) Please be respectful of neighbours and where possible drop and go. .

The back gate will open 10 minutes prior to you dancers arrival time and will close at the moment that the class begins. Late entry will not be permitted.

Arrival Procedure and Pick up

Upon entering the Hollywood studio we ask dancers to change their shoes and place their coverups in their bags. They will then hand sanitise and have a temperature check before being led to their studios.

Dancers will exit out of the main red door after using the sanitiser station - Please pick your dancers up from the pavement outside the main doors on the high street promptly upon the end of the day. Please socially distance upon pick up.

Risk Assessment and Certification

All staff have completed Prevent Covid19 courses and the certificates are in the studio. Our Risk Assessment is available for all to read on our website. This will be updated as Government guidelines change.

Uniform

Due to our changing rooms remaining closed for anything other than transit we would like dancers to wear something that covers them for all genres. We ask that dancers arrive changed and ready to dance with only their shoes to change. Please make sure your dancers have something warm to wear over them upon arrival and leaving. Please sort your son/daughters dance bag out prior to the start of term so they do not bring too much with them. Anything that is left inside the studio after each session will be disposed of.

Footwear

We ask that dancers wear either ballet shoes or socks for their classes. We will not be allowing bare feet within the studios at this time.

Breaks

Inevitably with a whole day event dancers will need to take their breaks or eat their lunch at the studio. Any break times will be taken within their learning capsule and a room allocated for them to eat and be in.

Continued Communication

We would like that all communication is continued to be taken by email to rosinaandrews@me.com

In matter of emergency or to instigate test and trace we will use text message as our first choice of communication. Please use 07712816666 your port of contact.

We believe as ever that clear concise communication is paramount to our success as a business and therefore ask that you are proactive with checking and replying to your emails and texts.

Rosina Andrews Method Faculty Promise

At this time of uncertainty our faculty promise to offer a safe outlet to your sons and daughters.

Somewhere for them to resume a sense of normality and to reboot their training. It comes with a great honor and also responsibility that our faculty have such an important role in this rebuilding phase for your children and therefore we have asked them to follow guidelines strictly and take additional precautions within their lifestyles in order to not compromise Rosina Andrews Method, it's students or families.
